### ✦ ARTS IN MOTION SERIES ✦

**ARABESQUE**

As part of the *Arts in Motion Series*, "Arabesque" represents a ballerina in the traditional arabesque pose. The figure is so simple, yet it manages to capture both the grace and movement of the ballet dancer. She is perfectly balanced on one leg with the other extended backward. Her back is arched, head tilted, and her arms curve gracefully in position. Paused for a brief moment, until the music moves her in another direction.

"Arabesque" is part of the limited bronze *Arts in Motion Series*.

*Bronze*  
*Limited Edition of 25*  
*26"H x 17"W x 2"D - 12 lbs. - \$695*

**PRANAYAMA**

Named after the method of controlled breathing developed by ancient yogis, Pranayama is a graceful yet powerful figure. As he stretches backward in the "Crescent Moon" pose, Pranayama is the embodiment of yoga with the smooth, flowing lines of his pose creating a sense of serenity and calm.

"Pranayama" is part of the limited bronze *Arts in Motion Series*.

*Bronze*  
*Limited Edition of 25*  
*24"H x 20"W x 5"D - 42 lbs. - \$2,395*

**STAGE DANCER**

Caught in mid-step, "Stage Dancer" seems to be concentrating on her complicated footwork and unique arm positions as she moves into the next sequence of steps. Her unconventional posture promotes a sense of tension and movement.

"Stage Dancer" is part of the limited bronze *Arts in Motion Series*.

*Bronze*  
*Limited Edition of 25*  
*12"H x 12"W x 3"D - 13 lbs. - \$1,250*

**DANCING CHEEK TO  
CHEEK**

This fun, solid bronze sculpture was inspired by seeing two dancers grow into this position on stage. The abstract nature of this piece makes it almost illogical upon first view because the dancers are joined in a way that creates a single, unique pretzel shape. The beautiful patina accentuates the smooth curvaceous shape.

"Dancing Cheek to Cheek" is part of the limited bronze *Arts in Motion Series*.

*Bronze*  
*Limited Edition of 25*  
*12"H x 10"W x 7"D - 18 lbs. - \$995*

**YOGETTE**

In a seated position with her arms stretching upward, "Yogette's" curving silhouette creates an accentuated hourglass shape. She has a powerful body yet her position creates a sense of controlled strength and quietness.

"Yogette" is part of the limited bronze *Arts in Motion Series*.

*Bronze*  
*Limited Edition of 25*  
*9"H x 5" W x 5" D - 7 lbs. - \$595*

**YOGA 4-2**

Bound together in total harmony, "Yoga 4-2" is an intimate portrayal of the essence of love. It suggests not only the physical intertwining of two bodies, but also the emotional meeting of two souls. "Yoga 4-2" captures the serene joy that comes with the sharing of body and soul.

"Yoga 4-2" is part of the limited bronze *Arts in Motion Series*.

*Bronze*  
*Limited Edition of 100*  
*7"H x 7" W x 5" D - 9 lbs. - \$495*
