✦ INDIVIDUAL PIECES ✦

EVE

Emerging from the succulent undergrowth, this torso changes as she rises from a surreal suppleness to an almost realistic form. Her subtle transformation from seductive sensuousness to artless adolescence presents a unique mixture of maturity and innocence.

The rich brownish-green patina adds to her changeling qualities by making her seem more related to the plant life she is rising out of than her human form.

Bronze
Limited Edition of 25
27"H x 16"W x 9"D - 65 lbs. - \$2,995

KISSERS

This elegant, well-dressed couple is oblivious to all around them as they thoroughly enjoy their intimate embrace. The interconnection, and tension between the couple's bodies portrays the passion they have for each other.

Bronze
Limited Edition of 10
29"H x 9"W x 9"D - 48 lbs. - \$2,495

ABS

Abstract Bronze Sculpture ("ABS") is a smooth, flowing form. The shape is intertwined and balanced by the use of almost symmetrical positive and negative space.

The artist has left it unnamed to encourage the viewer to interpret and decide what the shape means to them.

Bronze
Limited Edition of 25
27"H x 9"W x 9"D - 65 lbs. - \$1,800

ASCENDANCE

In this sculpture the traditional roles of man and woman are reversed, as the female figure is the one in the dominant position. She stands above the male figure, her skirt flowing around him as he is wrapped around her legs in an almost fetal position. It is unclear whether she is satisfied with her place above the man, if she is keeping him down, or if she is contemplating helping him up by reaching down to him.

Bronze
Limited Edition of 25
23"H x 18"W x 10"D - 40 lbs. - \$3,095

GATHERING STRENGTH

Seated and introverted, this figure seems despondent and unreachable. However, it also seems as if it has the potential to find the strength from within to overcome its pensive posture.

"Gathering Strength" represents the potential of the inner spirit to overcome difficult situations.

Bronze
Limited Edition of 50
3"H x 3"W x 6"D - 3 lbs. - \$249

DETERMINATION

Strength, determination, and Man-in-motion define this powerful bronze sculpture. At first glance you see a strong angry man bursting through a brick wall.

Look closer, look from all sides, you can also see a man who is concerned, compassionate and very determined to keep a promise. An incredibly motivating piece - personally and professionally.

Bronze
Limited Edition of 25
15"H x 13"W x 14"D - 55 lbs. - \$3,250

SOLITUDE

Seated and introverted, this abstract figure is a touching portrayal of isolation and dejection. Although her pensive pose projects a sense of melancholy, the shimmering colors and depth to the patina convey a sense of emerging spirit.

Bronze
Limited Edition of 25
8"H x 8"W x 8"D - 12 lbs. - \$1,125

Deeply connected and in their own little world, "Mother and Child" perfectly expresses the overwhelming outpouring of emotion a mother feels for her infant. The sculpture's sinuous form portrays both the fierce protectiveness and tender touch of the mother.

Available in Bronze and Stainless Steel.
